DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14, 16, 22-27, and 36 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over “K-1 Vehicle TA-10 Flight Experminent Design and Requirements Document” now referred to as “K-1”.

K-1 discloses a system for introducing payloads into earth orbit having the claimed elements.

Please note that sensors, data storage unit, and avionics data bus are notorious in this day and age. Therefore, one skilled in the art would have used these elements in order to do the experminets.

Allowable Subject Matter

Claims 15, 17-21, 28-35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

The Examiner has reviewed the applicant's arguments and evidence that the “K-1” reference should not be treated as prior art. The Examiner, however, respectfully disagrees. The

Art Unit: 3644

applicant has not petitioned to expunge the "K-1" reference in the IDS. The Examiner therefore shall treat the K-1 as a prior art. Furthermore, the revision of the "K-1" reference is not proof that it is not a published prior art.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
